Vertical Horizon announces Calendar Converter for iPod Touch, iPhone and iPad

Antwerp, Friday 26th of August 2011.

Vertical Horizon, the Antwerp based software company, releases Calendar Converter for iOS. The app is optimized for iPod Touch and iPhone, but also works on the iPad.

Calendar Converter allows you to easily navigate to a date in the Gregorian, Julian, Hebrew, French Republican or Islamic calendar and get the corresponding dates in the other calendars. You can copy the date to the clipboard and use it in another app.

You can get more info on the Calendar Converter website.
<http://calendarconverter.myblood-line.com/>

Calendar Converter is sold on the [App Store](#) for \$0.99 USD.

About Vertical Horizon – the makers of myblood-line

Vertical Horizon is an independent, Belgium based, start-up company that brings together the power of personal computing with in depth knowledge of genealogy. Vertical Horizon was started by seasoned and experienced IT professionals with a passion for genealogy. The Antwerp based company is owned and financed by its management team.
